

School of Computing & Information Sciences

Master's of Science in Computer Science

The FIU School of Computing & Information Sciences provides diverse opportunities for students, through an array of graduate level degree programs in several disciplines.

The MS in Computer Science provides studies in state-of-the-art computer applications as well as an introduction to the theoretical foundations of computer science. Our faculty embodies a broad range of computing interests and has built dynamic and innovative research centers and groups around several areas of specialization.

The computer science industry is one of the fastest growing in the U.S. The Bureau of Labor Statistics predicts that nearly 550,000 new jobs will be available by 2028. Having a master's degree in the field can help you secure the more senior roles you desire.

The time is now! For more information about this opportunity please reach out to the graduate program advisor TODAY!
