# School of Computing & Information Sciences
## Master's of Science in Telecommunications & Networking

**FLORIDA INTERNATIONAL UNIVERSITY**

School of Computing and Information Sciences

FIU's School of Computing & Information Sciences provides a wide range of opportunities to its students, offering a range of graduate level degree program, in a number of disciplines.

The MS in Telecommunications & Networking prepares to lead in the ever-changing environment of real-time global information networking, telecommunications, wireless & optical strategies and how to amplify business value through communications technologies. With several areas of concentration available, students can pursue a more specialized study in the field, obtaining a higher level of education.

Join the exciting world of telecommunications. Learn to design and install all voice, video, data and computer systems. You can be the one monitoring data security and troubleshooting issues that arise. Make it your goal to develop the safest & most efficient systems.

The time is now! For more information about this opportunity please reach out to the graduate program advisor TODAY!
